Subject: **ECOSYS SRL - Reference Letter and good performance certification of the works**

I, Vougiouklakis Dimitrios, on behalf of Motor Oil Hellas, would like to state that ECOSYS Srl carried out to completion and with excellence the projects listed below

Year	Contract no.	Job	Tank capacity (m ³)	Cleaning method
2023	400751	Tank cleaning to gas-free on tank	120.000	COW + Tricanter + manual removal of residual sludge
2023/2024	40011216	Tank cleaning to gas-free on tank	120.000	COW + Tricanter + manual removal of residual sludge
2024/2025	40028968	Tank cleaning to gas-free on tank	120.000	COW + Tricanter + manual removal of residual sludge

All three projects were carried out at Motor Oil Hellas refinery in Corinth (Greece), in accordance with the plans and the contract that was agreed upon by the Parties, and by applying the ECOSYS “State of the Art” equipment and also by taking into account and ensuring the high level safety requirements during the works.

The expected technical results concerning the quality and quantity of recovered oil from the sludge were fully accomplished through the specific treatment method that was applied. The ECOSYS staff completed the job with professionalism, and successfully and proactively overcame the challenges presented during the projects. In this endeavor the constant discussion and cooperation between Ecosys and our (MOH) staff was essential.

The scope of the work was then achieved, to the full satisfaction of the Customer as well as the Contractor.

Following what was stated above, I definitely recommend ECOSYS as a reliable and professional company for carrying out projects aimed to Oil Tank Cleaning.

Corinth, 7 August 2025

MOH (Vougiouklakis Dimitrios)
